RETRO-GEAR Manufactured Product

1955~1957
Chevrolet Emergency Brake Warning Light

New Reproduction Product

The front bezel, red jewel, housing and mounting bracket are reproductions of the original 1955~1956 version, the back end has been updated

This will work on a 1957 but does not look like the original

Complete kit includes, front bezel, red jewel, housing, spring, light, socket, mounting bracket, flasher, flasher harness, flasher bracket and the instructions.

The switch that goes on the brake assembly has been updated and now has two wires going to it vs one the original had for the 1955~1956 version. The 1957 always had two wires.

Simple wiring
Provides a flashing red light when the emergency brake is applied while the key is in the on position.

Helps prevent drive offs while the emergency brake is still applied

Part # E1005

1957 Chevrolet
Emergency Brake Warning Light

New Reproduction Product

The front bezel, red jewel, housing and mounting bracket are reproductions of the original 1957 version, the back end has been updated

Complete kit includes, front bezel, red jewel, housing, spring, light, socket, mounting bracket, flasher, flasher harness, flasher bracket and the instructions.

Light can mount in the bracket either direction

Simple wiring
Provides a flashing red light when the emergency brake is applied while the key is in the on position.

Helps prevent drive offs while the emergency brake is still applied

Part # E1003
